The Draft 2018 Five-Year Review Report is Available for Public Comment Until September 7, 2018

According to federal environmental law, when the Navy's cleanup plan leaves some contamination in place, the Superfund law requires it be evaluated every five years. This process is called a "Five-Year Review" (FYR). During FYRs, the Navy inspects the site; reviews site documents and data; identifies any new information; assess progress made since the last FYR; and seeks input from partner agencies and interested community stakeholders. These FYRs help Navy understand how cleanup actions are working to protect human health and the environment.

The Navy released a draft of its fourth FYR report for multiple site parcels on July 18, 2018. A copy of this draft report can be found [[HYPERLINK](https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.scs&id=0902722&doc=Y&colid=37700®ion=09&type=SC) "<https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.scs&id=0902722&doc=Y&colid=37700®ion=09&type=SC>"].

The Navy encourages members of the public to review and comment on the draft report. Please submit comments in writing postmarked no later than September 7, 2018 to:
